ShermanJim Arnold's new exotic travel book "007 Exotic Location: Bahamas" is packed with James Bond trivia, and Bond movie locations, plus items of interest in general to film buffs, and of course, an insider's look inside and around The Bahamas.The Bahamas

has been a hotbed of 007 activity and is prominently featured in Thunderball, Never Say Never Again and Casino Royale. And water-based action was lensed there for You Only Live Twice, The Spy Who Loved Me, For Your Eyes Only and The World Is Not Enough. 007 Bond films in one spot makes it an all time leader along with Florida and the UK itself. Sean Connery's move to The Bahamas following the Thunderball craze made the islands what they are today. Plus, the literary Bond got to The Bahamas there first--these lush islands with friendly folk are prominent in Ian Fleming's For Your Eyes Only and Thunderball, and Raymond Benson's High Time To Kill. Besides photos taken on site in Bahamian Bond locations, Arnold features a deep directory of international Bond movie locations. The book is packed with hundreds of pages of trivia. I learned quite a few things though I thought I knew everything worth knowing about the Bond films. I've had the pleasure of traveling lockstep to many of the spots within with Arnold. He loves movie trivia and movie locations, and there are plenty of tidbits and enticing locations in this book. Jim Arnold is an excellent and charming storyteller, movie buff, and reproduction prop maker. He added a photo and text directory guide to more than 200 James Bond collectibles, many of them in stock at his Reel Art props store for the man who has almost everything but for whom The World Is Not Enough! As James Bond fans know, there are hundreds of exterior locations worldwide still recognizable from the films--if you know where to look--and Jim Arnold knows. Bondians have places to go on every continent except Antarctica. The Bahamas is one of the best and brightest. The Bahamas is also one of the best Bond vacations overall, especially with so many spots utilized in the widely successful Casino Royale starring Daniel Craig. And Arnold and family are famous for touring locations all day then partying at the Atlantis casino all night. Yes, that's The Man With The Golden Gun's weapon and Blofeld's ring on Jim's left hand in the cover photo, and a deadly Thunderball spear gun in his right hand. Arnold loves Bonding with the fans! This is one of the few and precious books devoted primarily to 007's movie locations - keep 'em coming, Jim!-- Matt Sherman, BONDLIST eZine and the Bond Collectors' Weekends
