**Parragon Books : 100 Diving Sites** before purchasing it in order to gage whether or not it would be worth my time, and all praised 100 Diving Sites:

Oceans cover more than two-thirds of the surface of our planet, and there are many fascinating and unique diving sites around the world. The Red Sea and the Caribbean captivate divers with their glorious displays of color, the Raja Ampat archipelago in the Indo-Pacific region boasts the greatest diversity of species, and Turk Lagoon in the northern Pacific has shipwreck graveyards steeped in history. In northwest Florida, manatees enjoy meeting divers, while around the Turks and Caicos Islands the highlight is snorkeling with humpback whales. Off the Socorro Islands of Mexico, manta rays and divers swim together. There are extraordinary things to be found almost everywhere - and this

photo-filled book shows you precisely where to look. Dive down with us to gaze at the wonders of the oceans, into the fabulous world beneath the waves, where unforgettable adventures lie in wait.
