Craig Martin : 100 Hikes in New Mexico (100 Hikes in) 2nd Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised 100 Hikes in New Mexico (100 Hikes in) 2nd Edition:

0 of 0 people found the following review helpful. Best NM hiking book!By AndrewI purchased this book for my girlfriend and we have taken a few suggested hikes this summer so far. Very well written with maps and great

pictures.3 of 3 people found the following review helpful. More for the hiker who likes longer hikesBy Leigh JohnsonWhile the location of the hikes are in some interesting and beautiful sites, often the hikes are in difficult situations and over longer distances. If you are a part-time hiker and like to hike shorter distances, less than 4 or 5 miles I would suggest you look elsewhere. If you want challenges over longer distances and challenging situations this is probably for you.1 of 1 people found the following review helpful. 100 Hikes in New MexicoBy GlassygalThis book was for a more advanced hiker than what I am. For the advanced hiker it would be a very good book. Many hikes are very long and I was looking for shorter day hikes. These hikes would be good for overnight camping.

* Twenty-nine all-new hikes * Explore trails ravaged by the 2000 Cerro Grande Fire * Over 13,000 of the previous edition sold New Mexico offers a surprising variety of terrain to explore: from the Chihuahuan Desert in the south, to remarkable alpine lakes in the Sangre de Cristo Mountains to the north. Includes easy one- and two-mile day jaunts, numerous eight- to 12-mile hikes, and 20-plus-mile backpack trips for the more ardent adventurer. Interesting on-the-trail information such as the history of old mining camps, homesteads, and ghost towns is included. Most hikes are quickly accessible from the urban centers of Santa Fe and Albuquerque.
