It is a list - and a poor one at that - of places in Washington. No details, no information, no addresses, NOTHING. A ridiculous waste of paper. For example, one of the recommendations is to read the appallingly horrible "Twilight" books. SERIOUSLY?? Those idiotic books have no reflection on this beautiful state. Additionally it is badly printed - very light ink with widely spaced entries, presumably to make this feel like a valid book. Find a real guidebook and give this beer coaster a pass.3 of 3 people found the following review helpful. A real disappointmentBy Retired GIS GuyThis is simply a list of ideas and locations. No other information supplied. I would not recommend it for any sort of guidance.1 of 1 people found the following review helpful. It was like a letter written to a friend who know Washington instead of a book.By LindaThis book had no pictures. Most the time it did not even say where a place was let alone an address to find it.
