By Dana M. Townsend
I bought this because I'm going on my first cruise. Many of the "tips" in this book are dishonest ways to beat the system. If you are an honest person, looking for honest tips... do not buy this book.

Not Worth the Money

If you have never cruised before, this may be helpful. But if you have ever been on a cruise, this information is already known to most. A lot of the information is outdated and no longer relevant. I could see paying \$2.95 or less for this small booklet. Way overpriced. I have only been on 3 cruises and could probably add so much more to this book. Real disappointment.

I learned some new tricks for cruising!!!!

Whether you are going to enjoy a 4 day or 30 day cruise, you'll want to save money AND be pampered at the same time! Every page of this book is packed with spot on secrets - from getting 1st class service for free - to secret items to pack that NO ONE will tell you about. There's also 5 different proven ways take adult beverages on board! This is the book that all the cruise lines wanted to BAN!
