Those who go every year might not find that much helpful, but this book is great for those who have not been back to the Happiest Place recently. I consider myself a bit of a DL trivia buff and completist and I found at least one new thing here I had missed- Belle's Library, hidden beneath Turtle Talk in California Adventure. Well worth the price, but do note this is an addendum to a real guidebook, like "The UN-Official Guide". 1 of 1 people found the following review helpful. For the novice or initiated Disneyland visitor. By Holly Golightly. Helpful with tips and tricks to optimize planning and making a trip to Disneyland more economical. There were many nice extras I learned and I used to go to the park multiple times in the year when I lived in Orange County. Secret Mickeys are a mini obsession of mine so it was fun to see that covered. A big helper for many will be good times to get a meal and where. I would definitely recommend this book to someone going for first time as they would enjoy the park so much more instead of feeling a little overwhelmed and/or missing out. Disneyland has a lot of ground to cover. And now with California Adventure next door it really takes some careful planning to get out of it what you wish from a visit. I would especially recommend this book to parents with girls obsessed with princesses. 1 of 1 people found the following review helpful. Love this book. By Kyle Vannucci. Love this book. I've only been to Disneyland a few times and most of my visits I was under 10 years of age. Several of my adult friends were talking how much they love to visit even as an adult...I didn't get it. Now I do!!! What I loved most about this book was the hidden or not well known treasures at the park. I shared the book with my neighbors, they go to Disneyland about 3x a year, they even said they discovered something new.

Cam and her family have been traveling to Disneyland for many years, and usually, multiple times each year. She knows the park inside and out, and some of the Cast Members are getting to know her. She has on-hand experience with the full gamut of rides, shows, shops, and restaurants as a park guest. She has explored every tucked-away nook and hidden crannie that is publicly accessible. She's had unique experiences like seeing the Space Shuttle fly over Paradise Cove, witnessing the last performances of original shows, being at the opening of Cars Land, and basking in the immersive park decorations for Independence Day, Halloween, and Christmas. She's seen numerous sideshows, exhibits, parades, and fireworks displays. But she has also experienced 100-degree days, rain, sick kids, stomach flu, sunburns, multiple-hour lines, and capacity-level crowds. In short she has experienced a little of everything at Disneyland, good and bad. 101 Disneyland Tips is based on numerous years of visiting Disneyland and experiencing its magic in many forms. This book is not a traditional guide. Instead, it goes beyond the basic information commonly available in other travel guides and websites, and gets straight to what you should know. Whether you have one day to spend at Disneyland, or many, the practical, insider advice in this book is packaged into useful tips that can help make your visit less stressful and more enjoyable. With the knowledge Cam openly shares here, you'll be ready to conquer The Happiest Place on Earth like an informed pro.

About the Author. After spending many years trying to convince the guy (now her now husband) that she was the one, Cam Bowman and her man jetted off to Paris for a weekend. Sharing a warm croissant early one morning in the middle of France, he finally realized that she was also the one. So one and one became two. Fast forward a few years, these two multiplied and made two more. Cam now lives in San Francisco with her husband, two daughters, and an obnoxiously misbehaving chocolate lab, named Jackson. For the trouble he causes, Jackson should have gone to the pound by now. But the heartstrings tugged by Marley and Me somehow preserve his endangered role as the family dog. When she's not baking, leading a Girl Scout meeting, or driving to the next swim lesson, Cam spends her days navigating between laughter and tears as she raises two high-energy girls. Most days, she doesn't know if she's coming or going. So she records some of the unique family moments, along with practical tips and ideas she picks up along the way on her site, GrowingUpGoofy.com.
