Zagat Survey : 2006 Los Angeles/Southern California Restaurants (Zagatsurvey) before purchasing it in order to gage whether or not it would be worth my time, and all praised 2006 Los Angeles/Southern California Restaurants (Zagatsurvey):

2 of 2 people found the following review helpful. Zagat Survey Does The JobBy M. GordonThe Zagat survey is a fairly comprehensive restaurant guide to Los Angeles. It is also pretty accurate in terms of price and food quality. I've been to a few of the restaurants in the survey and the review was pretty much right on. Plus, there are plenty of restaurants in here to satisfy any craving. On the downside, the book doesn't list restaurants by area, only alphabetically. You have to scan the whole book to find the ones in your area. Also, there are a lot of unrated restaurants. I would rather see ratings for those, even if the sample size was low, with a qualifier that the sample size was low. Finally, there are some real gems out there that are missing from the survey. The survey includes a few chain restaurants, which it would be better served replacing with some of the mom and pop shops that you can eat good at.1 of 1 people found the following review helpful. A Good Starting Point For L.A. DiningBy R. McRaeEvery year I pick-up a new copy of the latest Zagat. A good starting point, but many locals probably feel the same as I, that many other less known favorites are consistently left out. Annual surveys should also include recommendations from long time residents, of restaurants they'd suggest to travelers and locals. Even some of the listed choices can be a hit-or-miss depending on individual tastes.

Los Angeles/So. California Restaurants covers some 1,740+ restaurants in Los Angeles/So. California including Orange County, Palm Springs, Santa Barbara and more. This handy guide contains Zagat Survey's trusted ratings and reviews for area restaurants based on the opinions of diners like you. The trademark reviews and corresponding ratings for Food, Dcor, Service and Cost are organized alphabetically in a user-friendly format. Use the indexes arranged by cuisine, neighborhood and special features like "In" Places, Winning Wine Lists, or Romantic Places to find the perfect restaurant for any occasion.
