From ZAGAT : 2012 Texas Restaurants (Zagat Survey: Texas Restaurants) before purchasing it in order to gage whether or not it would be worth my time, and all praised 2012 Texas Restaurants (Zagat Survey: Texas Restaurants):

We work and travel primarily in larger urban areas - we always travel with Zagat. Zagat consistently gives a good overview of the local dining scenes - for us it is easier and quicker to open up Zagat than to wade through the online information morass. We have eaten at 70+ restaurants in San Antonio, Austin, Dallas and Houston that we found in Zagat - the reviews and information have been spot on. We have tried a variety of other travel guides (Frommer, Fodor, Mobil etc) that include restaurant information but for the type of food that we like (non chain, local centric food) they are fairly useless and filled with sponsor weighted information.1 of 1 people found the following review helpful.
