Tide-Mark : 2014 Santa Fe Railroad before purchasing it in order to gauge whether or not it would be worth my time, and all praised 2014 Santa Fe Railroad:

By Bruce H. Jones I've been buying Tidemark Calendars and Cedco before them, for years. The photos in this calendar are quite historic which is a plus but the reproduction is rather disappointing. Understandably some of the originals might not have been very good - good ones are getting fewer and farther between - but modern editing techniques can do wonders. There was also at least one "repeat" of a previously published photo (published many times in fact). I hope Tidemark will do better in the future.

By gerald millan exactly what i was looking for. this calendar has great pictures of the trains that i love to see. the layout gives me plenty of room to write my appointments on and i just can't say enough good about it.

By Bror Hultgren Really nice classic pics. Have purchased these over the years and 2014 does not disappoint. Transparent ebiz transaction as always

Original photographs from the 1940s through the 70s capture steam and diesel power operating across the vast Atchison, Topeka, and Santa Fe system.
