By Hiram Gmez Pardo Venezuela This ineffable statement of Georges Bernard Shaw would seem to be available for this useful text of Eric Asimov. With more than 10,000 restaurants, New York offers an unparalleled opportunity to taste the cooking of the world. So in this order of ideas, you have the chance to win or let down, because there are many hidden gastronomic treasures of remarkable actuality, but besides there are a great number of bad restaurants; so the trick is to avoid them. Through his personal and very engaging style, Asimov proposes us a true tour de force, classifying them by nationalities; simultaneously, he suggests us the best dishes of every local. If you do not want to risk yourself and besides lack of enough time to enjoy of one the most gratifying and fascinating pleasures of the life, this book may become an excellent reference guide to discover unexpected places that you would never have found unless you have a sybarite friend in this city. Go for this; you have nothing to lose and much to win. 0 of 0 people found the following review helpful. Help for Impoverished Newcomers or Curious Local By A Customer Upon deplaning in JFK I was hungry and lost. This book introduced me to the myriad good-eating opportunities in New York and the thrill of hunting down the best Roast Beef Sandwich or plate of barbecue. Though some of the places reviewed in 1998 have since closed, that state of flux and sense of serendipity is part of the exploratory experience in New York. This is an alternative (or quirkier supplement) to the ubiquitous Zagat guide. Asimov's book is as well-suited for a recently arrived student as for an experienced diner looking for pleasure in Manhattan's nooks.

With this completely updated 4th edition of his definitive guide, New York Times food critic Eric Asimov proves time and again that when it comes to dining out in New York, the best isn't necessarily the most expensive. Appearing every Friday in the New York Times, Eric Asimov's "\$25 and Under" column is a beacon, guiding financially challenged gastronomes to the very best the Big Apple has to offer. With this book, Asimov fills a void, providing in one volume 150 answers to the timeless question posed of New Yorkers and New York visitors alike: "Do you know a good place for dinner that's not too expensive?" New features include the best steaks, Chinese, French, sushi, pizza and delivery food; eating cheaply in the fanciest restaurants; and the best food in each neighborhood. From the ubiquitous to the uncommon, Eric Asimov shows the way and has all the answers. \$25 and Under 1998 includes tips, advice and strategies not found in any other New York restaurant guide.

"This is my favorite New York restaurant guide. Eric Asimov, one of the New York Times' restaurant critics, is among New York's most talented food writers. The reviews are low-key but subtly witty and insightful there is clearly a great mind at work here." -- from Steven Shaw's New York Restaurant Food Guide-Indispensable New York Food/Restaurant Books About the Author Eric Asimov is the chief wine critic of the New York Times, where his weekly column appears in the Dining section. He is married to Deborah Hofmann, has two sons, Jack and Peter, and lives in Manhattan.
