1 of 1 people found the following review helpful. Exactly what I was looking for By C and BI thought this was a great book. It provided exactly what I was looking for, a succinct book that outlined how best to experience various world

war II sites in the Pacific. I like the layout, with a little history about each place, then how the area is today. I also like how the author ranked each site based on several characteristics. Looking forward to visiting Peleliu soon!
