I kind of wished I ordered the paperback version though just because I don't really like e-books2 of 2 people found the following review helpful. Very informative!By S. SanbornI used this book to plan a hiking trip down the Fiery Gizzard Trail. It made it easier to pack because it informs you of all the different types of crossings (i.e. I wouldn't have thought there was water crossings so I may not have brought my waterproof boots). The details are very concise and it's an easy read.0 of 0 people found the following review helpful. The cover photo is a "must-do" hike.By AnaheimGaryI love this book. I just hiked to Buzzard Point yesterday, the photo on the cover. I went on a cold clear Sunday and the view was astounding. I've done about 10 of the hikes in the book, and I love the writing and photos.
