hikes was to include walks around local parks on paved paths. 0 of 0 people found the following review helpful. Good info, just wish it had ALL the hikes! By BeegeOkay, I know it can't have all the hikes, but he left out some of the ones I wanted to know more about. Other than that, this is the best book on hiking this area that I've found, and I particularly appreciate that he mentions exposure (shaded or not), as that can be brutal here for several months of the year. His descriptions of the difficulty seem reasonable compared to my own experience of some of the hikes. I use this book to give me ideas rather than be the only authority on the area, so I usually check out other online maps and satellite images before I take an extended hike. Also, pay attention to what season you're going in, because the waterfalls around here can dry up in the summer and wildflowers are very seasonal. Given all that, it's still a very helpful book that's got me going to some places I'd never heard of, so thanks for that! 0 of 0 people found the following review helpful. 60 hikes. By CustomerGreat book if you live in or around sacramento...All the best local hikes are in here...very detailed...highly recommend for sacramento area hikers.
