Jack Frost : A Cape Cod Sketchbook before purchasing it in order to gage whether or not it would be worth my time, and all praised A Cape Cod Sketchbook:

The summer home was a house built around two lighthouses my grandfather bought at auction. It was disassembled and lighthouses refurbishedvandreturn to their original coordinates as part of the Cape Cod National Seashore. I was told about a sketch and abstract by a friend and immediately checked for availability. I was happy to see I could buy a copy of the book and found the Towers in all its glory. Really a beautiful softcover sketchbook. Anyone interested in the architecture employed by builders on the Cape need to see the various homes and structures displayed in this book. Thanks for having it available !
