A book of Barrette's essays, published in a weekly newspaper column over a 12 year period...From the dust jacket: "Vivid prose sketches of country life - about people, furred and feathered creatures, growing things and the changes of seasons make up this beautifully written book. Here is the rich flavor of New England and the sea evoking a flood of memories for anyone who has ever vacationed or lived in the area. But this is also a book for anyone who has ever wondered about country life as an alternative to the pressures and problems, the mechanization and regimentation of urban living."
