Stephen J. Pavlidis : A Cruising Guide to Trinidad and Tobago before purchasing it in order to gage whether or not it would be worth my time, and all praised A Cruising Guide to Trinidad and Tobago:

A Cruising Guide to Trinidad and Tobago is the most comprehensive guide ever written covering this lovely Caribbean cruising region. Its 29 full-color charts containing extremely accurate data are based on independent surveys personally conducted by the author himself, using a computer hydrographic system. In addition, A Cruising Guide to Trinidad and Tobago contains detailed piloting instructions, GPS waypoints, photos, approaches and routes, anchorages, services, dive sites, history, index, bibliography, and more. This book, will greatly enhance your cruising experiences in this region by giving you valuable information based on actual experience, and local knowledge.

About the Author Stephen J. Pavlidis has been cruising and living in The Bahamas aboard his 40-foot sloop IV Play since the winter of 1989. The charts in Steve's guides are created using his own surveys created by personally visiting and sounding every area described using a computerized hydrographic system. Steve's coverage of the Bahamas was completed with the introduction of The Abaco Guide.
