Kevin Tracewski : A Fisherman's Guide to Maine before purchasing it in order to gage whether or not it would be worth my time, and all praised A Fisherman's Guide to Maine:

4 of 4 people found the following review helpful. Authoritative guide to Maine waters.By RobRoyReally enjoyable fly fishing guide for those who love Maine, or are planning a trip to different regions. 154 pages, plenty of black white photos throughout, with excellent color photos in the middle. One-page maps for each region add value. 95% of content is fly fishing for trout and salmon, and the only thing missing is more about smallmouth bass fishing with spin-casting tackle.0 of 0 people found the following review helpful. informativeBy john totaroLove did terrific book very informative0 of 1 people found the following review helpful. This is the best guide to Maine fishing I have read. So much water to fishso little time!By Scott CresseyKevin Tracewski's personal familiarity with many of the waters described gives me added confidence in the accuracy of his reviews. Maine has so many streams and bodies of water to fish, that it is a difficult task to select a reasonable number of waters and their fisheries to describe. Kevin uses a

good approach in this selection process by asking each area's State of Maine's fisheries biologist for their perception of the best waters in their district. The way Kevin has divided the State's waters and their fisheries into drainages and/or sections of the State of Maine makes it easy to focus on a particular geographic area. The many fine fisheries described in this book will make you think, "So much water to fish so little time!" Scott Cressey

Lifelong fisherman Kevin Tracewski deals in depth with which are the best of Maine's myriad lakes, rivers, streams, and brooks to fish; how to get there; and what techniques and tackle to use. Organized by region; supplemented by detailed maps and comments from area anglers.

"If you read one fishing book this year, I'd highly recommend Tracewski's." -- John Holyoke, Bangor Daily News, Bangor, Maine
About the Author Kevin Tracewski is an instructor of biology at the University of Maine. An avid, lifelong fisherman, he has published many articles in magazines such as Outdoor Life, Fly Fisherman, Flyfishing, and the Atlantic Salmon Journal. He lives in Old Town, Maine.
