Martin Knowlden : AA 50 Walks for Birdwatchers (Walking Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised AA 50 Walks for Birdwatchers (Walking Books):

This new edition provides fantastic walks including England, Wales and Scotland. Each walk has been specially selected by wildlife expert Paul Sterry, and gives details of different species of birds to spot along the way. Choose from seaside routes with the chance of viewing seabirds, as well as routes by marsh and heathland where migrating birds break their journey. Useful information on places to stop for lunch or tea, as well as places to visit in the area are also included.
