A great reference book - don't try to read it cover to coverBy phototristan When reading this book cover to cover, I found it lacked a climax and character development. It was also particularly lacking in plot.As a reference, this is a great book. Just don't try reading it cover to cover like me. It's best used to just thumb through, or to look up a particular area of travel.I recently had the opportunity to test and verify some of the information in this book by embarking on one of the routes. I found the mix of information and history informative.The book is durable and convenient in size to take along with you. And, seems a good value for the price. I plan on keeping this book on hand as a good reference for when I next take a road trip in Northern California.0 of 0 people found the following review helpful. worth it even for one driveBy Philip GreenspunI used this book for a drive from the Bay Area up to Sacramento. We would have taken I-80 if we'd not read about CA 160 through the California Delta. The book also came in handy for a day trip down California Highway 49, with very specific instructions about where to turn and what to see. It would be nice to have color photos of each sight (Dorling Kindersley style) but otherwise this is a great companion.0 of 1 people found the following review helpful. A superb guide book for Northern California travelers.By Midwest Book ReviewFrom lesser-known pocket beaches and family-owned wineries to sporting adventurers and English country pubs in out of the way places, Richard Harris Ray Riegert's AAA Hidden Highways Northern California outlines both the human and natural wonders to be found off the beaten path in California. Packed with maps and destination-oriented travel advice, this takes a well-known region and offers new twists and turns.

Nine journeys along hidden highways in California, from Route 1 along the coast to Highway 395 high in the Sierras, and themed drives are outlined in this guide, that also features a special urban drive through the neighborhoods of San Francisco.
