Warren Lerude : Above Tahoe and Reno before purchasing it in order to gage whether or not it would be worth my time, and all praised Above Tahoe and Reno:

0 of 0 people found the following review helpful. Beautiful book!By Ruth MorganI live at Lake Tahoe, and I have bought many copies of this book because I like to give my guests a one as a souvenir of their visit. The arial photos are spectacular.0 of 0 people found the following review helpful. Above Tahoe RenoBy J. Robert ShupeExceptional experience regards quality of product turnaround time. Would do business again with this seller.0 of 0 people found the following review helpful. Tahoe on my mindBy Shannon DeasonWow, what gorgeous pictures, Robert Cameron is an amazing photographer and the images in this book are just breathtaking. I defer to the other reviewer on whether the pictures are current, I assume looking at the publishing date of this book that they where not taken yesterday, but quite frankly Lake Tahoe is timeless and the pictures are amazing, whether taken 1 year ago or 10 years ago, a great picture is a great picture. I highly recommend this book to anyone who enjoys great photography and amazing scenery, but if you are looking for a picture of the most current casino in Reno, you may be disappointed.

Above Tahoe and Reno. A unique combination of natural beauty and the handiwork of man. I am accustomed to looking down on the highrise canyons of New York or Chicago, or across the vast sweep of architecture in Paris or London or Washington. And even Yosemite and Hawaii do not present the challenge that faced me with the pristine elegance of this area. The problem was to capture its diversity. With the aid of Warren LeRude and Perry Di Loreto, I was able to present a new picture of one of the most beautiful lakes in the world and its relation to the bustling desert city, Reno. Hardcover, 9"x12", Album bound, 108 pages. Printed on acid-free, high-gloss paper.

About the AuthorRobert Cameron has been a photographer since 1921 when his father gave him a "Brownie" camera and encouraged him to use it. Cameron is now in his 90's and has published 16 of his "Above" books. He was a photographer for the Des Moines Register in the 1930's. Cameron learned the art of aerial photography during World

War II, while shooting pictures of military installations for the War Department. Cameron is a member of the Royal Photographic Society and a member of the Presidents Council of the International Center of Photography. His work has been exhibited in Paris at La Bibliotheque Historique and the Foundation Mona Bismarck. In New York at the International Center of Photography, the New York City Municipal Arts Foundation. In San Francisco at the Vision Gallery, City Hall and the Pacific Center for Photographic Arts. In Chicago's O'Hare airport. In China at the New Gallery of Art in Shanghai and at the Forbidden City. Cameron is currently working on his highly anticipated new book "Above Mexico City".
