Appalachian Mountain Club Books : Acadia National Park Map before purchasing it in order to gage whether or not it would be worth my time, and all praised Acadia National Park Map:

0 of 0 people found the following review helpful. Great laminated mapBy Paula MGreat laminated map to go with the AMC's Outdoor Adventures: Acadia National Park: Your Guide to the Best Hiking, Biking, and Paddling. This map is included with the guide but it is not laminated. I recommend buying this map because it is laminated. The map and the guide book are excellent and easy to use. I highly recommend purchasing both to get the most out of your trip to Acadia National Park.0 of 0 people found the following review helpful. Ok, but not the bestBy moznickThis map is light and pliable, so it fits easily in your pack or pocket. It is also nontear, which is another advantage. It is not nearly as big, and thus not as easy to read, as the 3rd edition of the Jill o'keefe map, which is my favorite based upon years of use. "A Walk in the Park", although out of print and somewhat dated now, is also a favorite as the trail descriptions are spot on. Between the two, you can make nearly endless loop hikes through the park, the number of which are increased if you park your vehicle strategically and use the park bus system. I picked up this map before our most recent trip to Acadia, but left it for the next folks in our rental home. Not bad, there is just a better map.0 of 0 people found the following review helpful. Great map. Accurate.By Richard O.Great trail map. Didn't get lost, which is the highest compliment

Make the most of your trip to Acadia National Park with Appalachian Mountain Club's Acadia National Park Map. This GPS-rendered topographic map is a compact yet comprehensive resource for exploring Maine's popular park on bike, water, or foot. On one side you'll find a map of Mount Desert Island in its entirety, including insets of Isle au Haut and Schoodic Peninsula. On the reverse is a close-up map of Eastern Mount Desert Island, detailing such popular treks as Jordon Pond, Bald Peak, Cadillac Mountain, and Cranberry Hill. Trips from the companion guidebook, AMC's Outdoor Adventures: Acadia National Park, are clearly labeled on the map.
