JIMAPCO Inc : Adirondack - North Country Road Atlas before purchasing it in order to gage whether or not it would be worth my time, and all praised Adirondack - North Country Road Atlas:

Detailed maps showing streets roads, hiking trails, snowmobile trails, lakes streams, recreational areas and other points of interest for the Adirondacks and the North Country region of New York State

About the AuthorJIMAPCO publishes over 120 maps and atlases for New York, Pennsylvania and New England. Besides our popular County Maps, we also produce detailed City Maps and informative Regional Maps, as well as a line of detailed Atlases. In 1966, Jim Fisk, a well known television personality in New York's Capital Region, volunteered to help with a church canvassing project. He created a detailed map of his Burnt Hills, New York

community, and offered the extra copies to the local pharmacy to sell. Sell they did, and before long, other communities in the upstate New York region were contracting for Jim's mapmaking services. The company grew steadily, and maps covering ever increasing territories were produced and distributed. Today, more than 40 years later, JIMAPCO maps are recognized far and wide for their excellent quality, ease of use, and accurate information. JIMAPCO researches and maintains over 120 of its own titles. JIMAPCO titles can be found in many national retail chains.
