roadtrips. This gave me lots of insight on what the California coast had to offer. The maps are great, pointing out things like seal sea lion haul outs, sea caves, the best fishing spots, and surfing spots. And each route is rated so you can choose something within your ability. Keep an eye on weather reports though, especially surf and wind. I appreciated the warning about the Santa Ana winds since those were new to me. If I had one complaint it would be that this book doesn't include Oxnard Ventura harbors. Both have sheltered launch points and break water so are well suited to beginner paddlers. 1 of 1 people found the following review helpful. Wanted More of Comprehensive Guide By CocoThe Slug Since there does not seem to be a comprehensive guide that literally lists all of the places one can kayak in So Cal, this book is the next best thing. 0 of 3 people found the following review helpful.
