It's a perfect coffee table book. Everyone who sees it becomes engrossed. 0 of 0 people found the following review helpful. Borsari did a good job of capturing the beauty and some of the ... By Stuart Bumgardner I found that Mr. Borsari did a good job of capturing the beauty and some of the unique sites that you will see there. Overall I was somewhat disappointed after reading the glowing reviews accompanying the offering. This book will give you an idea of the grandeur of this scenic cape but I hope there are other photographic anthologies that will more completely capture the breath-taking reality of this place. 5 of 5 people found the following review helpful. Almost better than being there By David Sullivan We first saw Andrew Borsari's work in his gallery on Bearskin Neck in Rockport. His images are striking and artistic; full of dramatic lighting and perfect moments. Most important, they capture the essence of Cape Ann, Massachusetts throughout its diverse moods and changing seasons. We were ecstatic that he has made his photos available in this publication. He has assembled dozens of his images from Gloucester, Manchester, Essex, and Rockport into a colorful presentation that is large enough to do justice to the subjects. Many images - like the combined front and back cover of Good Harbor Beach - are panoramas that faithfully convey the splendor of this place. Many feature the places the locals treasure and most tourists never see. This is a wonderful way to visit or remember this very special place.

Four gorgeous New England towns make up Cape Ann-Gloucester, Rockport, Essex, and Manchester-by-the-Sea-and each has a salty character of its own. The talented Borsari gives us schooners (Gloucester), granite quarries

(Rockport), clam flats and marshes (Essex), and one of the prettiest little communities in New England (Manchester-by-the-Sea).
