Alex Leviton, Kevin Raub, Adam Skolnick, Emily Matchar : Carolinas Georgia the South Trips (Regional Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Carolinas Georgia the South Trips (Regional Travel Guide):

I overlooked its different layout and it is all organized as useless trips. There is no relevant information pertaining to anything! You are given hundreds of snippets of odd and

rather useless info, ex: zoos, weird exhibitions, tons of museums, mansions to visit, etc. but for a trip which is meant to take 500 or 800 hundred miles you'll be given just one or hopefully to places to sleep with not much review about it and budget range \$200. I have just returned from a trip to the Deep South and the book was most of the time useless, which drove me mad. I kept digging into it but couldn't find much help anywhere. We had to rely on info given from Visitor's Centers, which, by the way, are most amazing in the South. If you're camping it's going to be even worse because campgrounds are given maybe just a few times throughout the book. We were lucky we had GPS campground application. All in all, unless you're looking for itineraries, for example from Ohio to Louisiana, and want to follow it completely the book will not give you much freedom to use it. Even the Smoky Mountains trip was not organized around the mountains but telling you what you could and should do in the towns surrounding it. If you're looking for famous Lonely Planet off the beaten path advice you're not going to find it there. 4 of 4 people found the following review helpful. Good for ideas, useless as a guide By Sasha As many people wrote, this book is good only to browse for trip ideas - which I suppose you can do with the same success by just Googling. It's useless as a guide, as you would never want to actually do any of the trips in it in their entirety, they just make little sense by themselves. It's also hard to use if you are just passing by the areas covered, because you have to go back and forth and gather all the suggestions for any particular place that may be scattered over several chapters/trips - very annoying. 0 of 0 people found the following review helpful. I felt the trips were too put together, it ... By Customer I felt the trips were too put together, it didn't allow thought about roaming from one place to the next and what the very important parts to see with limited time.
