Leah Downing : Catch a Falling Star (Shooting Stars) (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Catch a Falling Star (Shooting Stars) (Volume 1):

1 of 1 people found the following review helpful. A friend recommended this book for a summer read and she was ...By N. ColletA friend recommended this book for a summer read and she was spot on, even if it's not summer yet! Catch a Falling Star sucked me right in and didnt let go. I did not want this book to end and once it did, the cliffhanger at the end WOW! When is the sequel coming out??This book has it all, with global implications that a supernatural

dark force called the Djinn is behind the Middle East conflict and even the Gulf War. It seems far-fetched, but Leah Downing weaves this overarching plot line into a romance story taking place between a British movie star who plays Superman (Henry Cavill?) and a former government agent turned yoga instructor to the stars. Let me tell you, it works and it's exciting! The reader is treated to an obvious insider view of western yoga folly and the security clearance world while still rooting for the POV character Lauren St. Germain and her superhero James Bayer to make it. You have this great mix of adventure, romance, exotic locations and mysticism, and characters that you grow to love for their integrity. I highly recommend this book and can't wait to see what comes next!! 1 of 1 people found the following review helpful. Talk About a Page Turner, I Literally Couldn't Put This Book Down! By CustomerWow, what a page turner! Catch a Falling Star is definitely one of the best novels I've read in years. Downing does an unbelievable job of seamlessly weaving a complex, multi-layered plot and a juicy love story that span both worlds and the globe, and then leaves you wanting more. Is the sequel out yet? I can't wait. 0 of 0 people found the following review helpful. Love that kind of twist in a story By ElizabethWho knew that a story combining a federal investigator and yoga would be so compelling? I was drawn to the main character, immersed in the descriptions, and didn't realize till the end that perhaps I had made an inaccurate assumption. Love that kind of twist in a story. Excited for the next book to be out-- maybe then my mind can rest. I want to know what happens with Lauren and James!

In Book One of the Shooting Stars Series, Catch a Falling Star, bestselling author Leah Downing introduces Lauren St. Germain, a Federal Investigator accused of assisting the Taliban in a homeland terrorist attack. Scandal, mystery, and Hollywood's dashing leading man refuse to let her fade from the public's eye. Her relationship status? It's complicated...and that's not even the half of it!

THE #1 AMAZON BESTSELLER 2016 WINNER Beverly Hills International Book Awards Cross Genre Fiction "Amazing, genre-defying story..." - Dandelions Inspired: Reading and ing Amazing Books! "...fun...sexy...exciting...we've just found our new Jackie Collins..." - 5-stars "I'm not sure what I was expecting when I started reading Catch a Falling Star, but this novel ended up being much more than I originally thought it to be. This novel follows Lauren St. Germain rebuilding her life after a military base explosion that she was accused of assisting with. She agrees to join her friends on a cruise to train actors in yoga for a movie. Here, Lauren meets the famous devastatingly handsome British actor, James Bayer. There are a lot of subplots to this novel - but in a great way. Anyhow, this poor woman endures a lot of crap, demonstrating incredible strength the ability to shrug things off, but I can't go into all of that because of spoilers. I highly recommend this novel to anyone that likes fiction with a little bit of romance, a little bit of supernatural, a little bit of military/government. I've been racking my brain trying to think of another book, movie, TV show, anything that I could compare this to, but I have nothing. Catch a Falling Star is completely unique and original. Even more impressive is that this is Downing's first novel?!? Her writing style, dialogue, imagery subplots make you feel as if you're reading work from a seasoned author, not a first-timer. She possesses an incredible ability to provide vision + insight into her characters, bringing them to life reeling the reader in. I absolutely loved this book am crossing my fingers that the author will want me to read review the sequel in the near future!" Jen Thomason Dandelions Inspired.com Reading ing amazing books Published Nov. 10, 2016 #1 AMAZON BESTSELLER 2016 WINNER Beverly Hills International Book Awards Cross Genre Fiction "Amazing, genre-defying story..." - Dandelions Inspired: Reading and ing Amazing Books! From the Author Book Two of The Shooting Stars Series will be available for pre-order February 1, 2017 "Fans of Catch a Falling Star, get ready... The Path of Least Resistance will BLOW YOU AWAY!" - 5-star review From the Inside Flap He took the empty glass from my hand and reached over my shoulder to set it on the deck, closing the space between us. "You have the unfair advantage of knowing all about me, but your life is still a bit of a mystery. He didn't back off and I was slipping. James Bayer, movie star, confidence for days, yet so easy to talk to and so very inviting. "You live in...?"
