I like hiking somewhat easy trails, especially to waterfalls for photography, and this will prove invaluable. I believe its water resistant, and folds up easily. A good map is as important as a favorite backpack....0 of 0 people found the following review helpful. Five StarsBy Ann R. CoffinHigh quality map - no one should hike without a map of this caliber.2 of 2 people found the following review helpful. Another Nice Map from NGBY WandererI have the five map set for the Adirondacks and find them to be high quality and accurate. This is the newest addition to their series and covers all of the Catskill Park. Although I haven't used it in the field yet I have looked at it extensively and find it to be of the same high quality as the Adirondack series and easy to use.
