Wanted something compact to record my thoughts about my trip. This will be perfect! Also has puzzles (with the answers in the back), that will be too simple for me, but I can work them with my grandkids.The journal part of the book is laid out in a 2-page spread...on the left there is room for the date, a small space to describe the weather and several lines to fill in with "What we did today". There are 3 lines at the bottom of the page with "Cool food of the day", "What I liked best today" and "Funny thing of the day." The right page has the title "Draw something you saw today" with a large frame underneath. At the bottom of the right page it says, "My picture is of:" That last thing will be good for me since I can't draw to save my soul and most things I do draw don't look much like what they are supposed to be.There's a list of websites you can use to research more about Alaska and pages to list what you'd like to see or places you'd like to visit. There are also 2 pages devoted to listing the names and addresses of

people you'd like to send post cards too. The small size (7.5" wide x 9.25" tall and about 1/4" thick) will make it easy to slip into my backpack. 0 of 0 people found the following review helpful. From someone who has lived in the DR for 22 years... By Elizabeth I have lived in the Dominican Republic for 22 years. This book has some good information about the country, but it also has MANY blank "journal" pages. My suggestion as someone who lives in the DR: Look up info on the country online and review it as a family. Then, just buy your child a journal notebook. The book is overpriced for the content (lack of). 2 of 2 people found the following review helpful. Excellent! By Nicole Excellent travel journal for kids. Has about 14 days and each day asks what the date is, weather, gives space to write about your day, asks what the funniest thing that happened, the best food of the day, and what they liked best about the day. They also leave a page to add a drawing or picture for each day. There are games for the flight and down time too.
