This pack is a trail from one cafe to another. No explanations on what there is to see. Format is nice but this could have been so much better. I can only assume that the publishers picked up sponsorship from the names places. Not recommended.1 of 1 people found the following review helpful. Great Help in Discovering SFBy Mike KarolewiczThis was our 4th visit to SF. We stayed at a bb near the Mission District which had these cards for guest use. City Walks was a great way to get to know parts of a city. We wanted to

walk neighborhoods and other areas aside from the usual tourist areas. The cards were handy in our backpack and gave enough detail to make it easy to get to by bus or train as well as connect areas for a longer walk, liked them so much I bought a set for my daughter for her upcoming trip. I'd suggest using them along with a full city map and the free BART and Metro bus schedules. 2 of 2 people found the following review helpful. Fun and Interesting Walks By Debby Walks are well documented and food recommendations were excellent. It's also fun to shuffle thru the cards to pick the walks. A fun product to take on excursions thru the area.

Featuring brand new walks, neighborhoods, restaurants, shops, and more, this completely revised and updated edition of the classic guide reveals San Francisco's greatest treasures and best-kept secrets. Each card includes a detailed, full-color map on one side and comprehensive walking directions and highlighted stopping points on the other. Ideal for anyone who wants to make the most of San Francisco!
