Child's guide By SH of FI Gave as a gift to a grandmother who was visiting her family in Washington DC. they used the guides to find areas of interest that were great for a child but interesting to the adults also. Love the entire series of City Walks and highly recommend them for any city you are visiting. The best way to "know" a city is to walk it and the producers of these aids have done their homework. 0 of 0 people found the following review helpful.
