**Anthony Mollica : Classic Boats of the Thousand Islands** before purchasing it in order to gage whether or not it would be worth my time, and all praised Classic Boats of the Thousand Islands:

Sort of a who's who of the boats of this area, with all the shots taken in the local setting. Also has fun information about the area, the boats and the buildings in the background. Suitable for anyone into old wooden powerboats, and wanting something broader-ranging than the books about a specific brand of boat. Good enough to pad out a serious library, and at the same time simple enough to leave laying around the house for guests to browse. My dad's nephew (10) liked it too. 0 of 0 people found the following review helpful. Great photos - wish it had a few other boats By Customer Purchased as a Christmas gift for my husband who grew up summering in the Thousand Islands region in the bilges of many a classic boat. He enjoyed the book and the only comment he had is that there are certain boats that he felt should have been included that weren't. However, for someone who isn't intimately knowledgeable with the boats of this region, it is a great comprehensive review of classic wooden boats. 0 of 0 people found the following review helpful. Beautiful Book By Susan S. Glossy beautiful photos and information about the classic wooden boats on the St. Lawrence river in the Thousand Islands. Also I got it at a fraction of the same book I found in the Thousand Islands. Very high quality book.

A superbly photographed tribute. The Thousand Islands region is one of the most picturesque in North America. For dedicated boating enthusiasts, it is a recreational waterway without equal. For antique boat collectors, it is a mecca of glistening mahogany and hand-polished brass. Classic Boats of the Thousand Islands explores the region's rich boatbuilding heritage, including: the unique St. Lawrence skiff lavish custom runabouts and sport boats cruisers and yachts floating limousines, sedans and commuters. Noted boat historian Anthony Mollica Jr. guides readers on a tour of the Antique Boat Museum in Clayton, New York, with its in-water fleet and the area's best boatbuilding and

restoration shops. Many of the boats featured are in pristine condition and have won awards in prestigious boat shows. Other reliable vintage watercraft in regular service on the river are also shown. The boats were photographed near their boathouses, on home waters, moored dockside or at speed, giving full spray.

47 boats, beautifully photographed in their natural habitats... The whole point of these boats, these homes, and this book is to escape the Information Age. Escape is what island themselves are all about, and it is why we love them. (Bill Swanson Wooden Boat) This book, with its 160 color photos, brings to life the art of the area's boat builders. (Liz Grogan Good Times 2005-08-01) From the Author On any given summer day, visitors to the Thousand Islands may see several attractive wooden boats involved in water sports, fishing, commuting and cruising. Nearly all of the region's classic boats are as attractive and vital now as during the era when they were new. In this special region of the St Lawrence River, boating flourished like nowhere else on the continent. The river's deep, crystal clear water along with nearly two thousand islands created cozy passages, quiet channels and protected harbors that many boaters consider to be the world's most delightful cruising area. The Thousand Islands region is also the home of the world famous Antique Boat Museum with six of their prized boats featured in this book. Here are the fascinating stories of forty-seven classic boats I have specifically selected for the book, as well as a review of the area's boating history. More than two hundred spectacular color photos, by award winning photographer, George Fischer, accompany the stories. About the Author Anthony Mollica Jr. is a respected authority on America's antique and classic wooden boats and a trustee of the Antique Boat Museum. He is also the author of *The American Runabout*, *Chris-Craft Boats* and *Gar Wood Boats*, the National Boating Museum's 2001 Book of the Year. George Fischer's photographs have been featured in more than a dozen books, including *Chariots of Chrome*, *Castles and Cottages* and *Sentinels in the Stream*. His international travel has led to books, calendars and posters on Guatemala, Malta, Tunisia, Costa Rica, Tuscany and many other destinations. His work has appeared in *The New York Times*, *Islands*, *Mountain Living* and *Explore*.
