Fodor's, John Doerper : Coastal California before purchasing it in order to gage whether or not it would be worth my time, and all praised Coastal California:

0 of 0 people found the following review helpful. A fun book to have with you as you travel - well written, thoughtful layout, and helpful information By SmileCoI have purchased two of the Fodor's Coastal California books - one for us and one as a gift. It has an attractive lay out, it is easy to read, full of real local and helpful information, and has great pictures. It is a great book to have with you while you are on a road trip. I can get more detailed information on the web - but this book isn't designed to give you in-depth information on everything covered. It is great for helping you figure out where you want to find out more - or if you are actually on the road, to help you make sure you don't miss

some really cool local stuff. It fits easily in your backpack. We love the Fodor's travel guides. Not everything you need to know about everything, but an enjoyable travel companion that will help you get more out of your trip. 0 of 0 people found the following review helpful. Best Guides ever! By Ingvar Bergman Fodor's Compass American Guides are excellent if you, in a joyful way, want to learn about a state. If you don't need to know about every top notch restaurant or hotel but want to know about the history and what there is to see and do. It has plenty of beautiful pictures and maps that make you want to catch a flight and explore the state. 3 of 4 people found the following review helpful. Helpful book By cameraf4 Took a trip to the coast to drive down from Carmel along Big Sur. This book helped me find lots of cool places along the way

Traveler spending in California climbed to \$78.2 billion in 2003 after two years of decline. Coastal California attractions, including the Golden Gate National Recreation Area, Sonoma Coast beaches, and sites throughout coastal San Diego remain top draws for the state.

About the Author Each Fodor's Travel Guide is researched and written by resident writers and experts.
