guide books. The ones in this series are well written with very accurate descriptions and maps, plus good background information. The difficulty ratings of the roads (which sometimes should be called "roads") are accurate as well, which is a hard task given that all the roads are subject to weathering and erosion, which can significantly change the difficulty. These are the first books I consult when planning my summer outings. 0 of 0 people found the following review helpful. Good informational book By Trials rider I have a few of these books. They do provide good information. It's always tough when "rating" difficulty due to the wide variety of vehicles and driver skills. I actually don't do 4WD but rather I use this for motorcycle adventure trips which makes it even more difficult to figure out how hard a trail really is. 0 of 0 people found the following review helpful. Very helpful trail guide By David McKeen This book gives excellent reviews of trails, with detailed landmarks, and hazard information. As a first-time off-roader, I appreciate the rating of difficulty of the trails. You can tell that it's written by people who use these trails regularly.

From Pueblo in the south to Fort Collins in the north, breathtaking scenic vistas, centuries-old ghost towns, and an untold number of recreational opportunities beckon just off of Interstate 25. Colorado Trails Front Range Region contains 42 scenic backroads and 4-wheel drive trails along the Front Range including trails near Fort Collins, Boulder, Idaho Springs, Denver, Colorado Springs, Canon City, and Rocky Mountain National Park-- perfect for planning a memorable outdoor adventure. Visit an intact nineteenth-century schoolhouse. Follow old railroad grades that were once Indian travel routes. Explore the ghost town of Nevadaville. Drive to the summit of Colorado's most famous fourteener. Driving directions include GPS coordinates and all trails are rated for difficulty, mileage, driving time, and more. Descriptions highlight ideal places to camp, hike, mountain bike, fish, and sightsee. Trail maps are topographic.

About the Author Peter Massey grew up in the outback of Australia. After retiring from a career in investment banking at the age of thirty five, he served as a director at a number of companies in the United States, the United Kingdom and Australia. He moved to Colorado in 1993. Jeanne Wilson was born and grew up in Maryland. After moving to New York City in 1980, she worked in advertising and public relations before moving to Colorado in 1993. After traveling extensively in Australia, Europe, Asia, and Africa, the authors covered more than 80,000 miles touring the United States and the Australian Outback between 1993 and 1997. This experience became the basis for creating the Backcountry Adventures and Trails guidebook series. Angela Titus was born in Missouri and grew up in Virginia, where she attended the University of Virginia. She traveled extensively throughout the western states, pursuing her interests in four-wheeling, hiking and mountain biking. She moved to Alabama and worked for Southern Living Magazine traveling, photographing and writing about the southeastern U.S. She moved to Colorado to join the Adler Publishing team in 2002. Since research for the Backcountry Adventures and Trails books began, Peter, Jeanne, and Angela have traveled more than 100,000 miles throughout the western states.
