National Geographic Maps - Reference : Colorado [Tubed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Colorado [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Loved this mapBy MichaelLoved it and it's non laminated so it can be glued to a solid board or wall.0 of 0 people found the following review helpful. ... have recorded on my motorcycle and this maps works great.By John MeyerI needed a large map for a perspective of the Colorado passes I have recorded on my motorcycle and this maps works great.0 of 0 people found the following review helpful. My Big Brother moved to Colorado and I didn't want him to get lost.By JACKIE SUDIAMy Big Brother moved to Colorado and I didn't want him to get lost. So I sent him a map. He likes it a lot.

The spectacular topography of the Centennial State is expertly rendered on National Geographic's wall map of Colorado. Part of the growing series of State Wall Maps, this map depicts Colorados diverse terrain and vegetation in remarkable detail. Mountain ranges, prominent peaks, major lakes, rivers, and reservoirs, and other geographic features are highlighted. In addition to hundreds of place names, this map includes the precise locations of cities, major roadways and railways, airports, military installations, federal and state parks, and protected areas. Prominent recreation features such as the Colorado Trail, Continental Divide Trail, and ski areas are also noted. This striking map would be an attractive addition to any study or office. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:705,645 Sheet Size = 40.5" x 30.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of

mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
