Marc Terrance : Concentration Camps: A Traveler's Guide to World War II Sites before purchasing it in order to gage whether or not it would be worth my time, and all praised Concentration Camps: A Traveler's Guide to World War II Sites:

0 of 0 people found the following review helpful. Five StarsBy Merry D. Well researched book and full of pertinent travel information.0 of 0 people found the following review helpful. Very Useful -- Highly RecommendedBy HistoricusThis volume is extremely helpful for visiting the more out of the way or forgotten Holocaust sites. The

author has done a great service in this respect, and the book is a "must" for those who wish to visit these sad and terrible places. Some who have reviewed the book have criticized the author's imperfect editing, occasional errors in grammar, etc. This is true, the book has a few minor glitches. But who cares, really? The information contained in it is accurate and really useful and I can easily overlook the other stuff(which is quite minor anyhow). I used the book when visiting central and eastern Europe two years ago and it proved excellent. I would never, ever have found the Plaszow camp site without it, that's for sure. I plan to bring the guide along every time I go to Europe. Bottom line: Sure, the production might leave a little to be desired in places (though as I have said, it isn't all that annoying) but this guide is the best out there - at least that I have discovered - on this subject and is therefore indispensable to the WW2 or Holocaust tourist. 1 of 1 people found the following review helpful. Not comprehensive, but still impressive. By J. C. M. Bannerman This book sounds like it would have a very comprehensive list of sites considering there were 23 main concentration camps (Konzentrationslager or KZ) in Germany and German occupied countries together with the 7 extermination camps ("Vernichtungslager" in German, literally "annihilation camps") in Poland and in the USSR, and you have to add in the myriad subcamps. Mr. Terrance also adds in some sites which are of interest, but not KZs, such as Anne Frank's House, The Corrie Ten Boom House, The Eagle's Nest (Hitler's Mountain retreat), and Hitler's Bunker Site.[...] I am impressed that he has a majority of the 7 extermination camps listed since they were demolished by the Nazis before the Soviet forces arrived. Add in the amount of survivors were negligible: 17 known survivors of Treblinka and 47 of Sobibor. Actually, the more I look at the sites on Mr. Terrance's site, the more impressed I am by this work. So, You will find this book useful unless you had relatives who were imprisoned at, or interest in, Lager Sylt Concentration Camp on Alderney or some other obscure camp

A Must for anyone planning on visiting the Concentration Camps of Europe. Contains street maps showing exact directions to the sites, walking routes, road signs, bus and train information, opening hours and what remains of the camps today. Includes 45 Street Maps Over 160 Pictures Plus...many useful Websites
