It has clear descriptions of the trails (some have been updated since publication so check the website before you leave) and tells you where scenic lookouts are. Gives clear trail lengths and allows you to figure out distance along the hike, too.0 of 0 people found the following review helpful. Four StarsBy doobsVery good book with removable maps.0 of 0 people found the following review helpful. Great Book for hikingBy PeterI love hiking, so this book is great, shows all the trails, and has great descriptions of everything. Dont hike without it.
