Jonathan Gold : Counter Intelligence: Where to Eat in the Real Los Angeles before purchasing it in order to gage whether or not it would be worth my time, and all praised Counter Intelligence: Where to Eat in the Real Los Angeles:

0 of 0 people found the following review helpful. it would be such an easy editorial fixBy urbanyettiThis is an incredible book, with incredible reviews and culinary insights, no doubt. BUT it is so poorly edited and organized. Instead of a neighborhood reference or food groups by chapter, the book is organized in alphabetical order: it would be such an easy editorial fix. To find food by style/ethnicity, you must check the index in the back, which isn't so bad. But doubly frustrating, is that none of the spots are organized by area in the Los Angeles area, so...after getting excited for

a new Burmese restaurant to check out, you are let down to realize that after getting your hopes up, the place is XX miles away in Riverside. No searching for a local spot, you've gotta dig. Maybe this was the intention to make us all go out and explore for ourselves. 0 of 0 people found the following review helpful. 4 stars for slightly damaged product
By snagan Oh my gawd! J.G. is the best! His prose makes my heart flutter. His creativity leaves me awe struck. And wrap it all up with the actual food reviews in a neat little box and I'm left entertained and inspired. I don't even care that this book is old and probably out of date. His writing is colorful, though provoking and timeless. 5 stars for this book.
4 stars because the book came damaged and bent, of which I did not buy a used book. The book stays completely cracked open to the middle of the book like the spine is broken but it's not. 0 of 0 people found the following review helpful. Five Stars
By B. Smith This is both a useful (if you have access to Los Angeles) and an entertaining read.

Jonathan Gold has eaten it all. Counter Intelligence collects over 200 of Gold's best restaurant discoveries--from inexpensive lunch counters you won't find on your own to the perfect undiscovered dish at a beaten-path establishment. He reveals the hidden kitchens where Los Angeles' ethnic communities feed their own, including the best of cuisine from: Argentina, Armenia, Brazil, Burma, Canton, Colombia, Cuba, Guatemala, India, Indonesia, Iran, Italy, Japan, Korea, Mexico, the Middle East, Nicaragua, Pakistan, Peru, Thailand, Vietnam and more. (set as bulleted list?) Not to mention the perfectly prepared hamburger and Los Angeles' quintessential hot dog. Counter Intelligence is the richest and most complete guide to eating in Los Angeles. The listings include where to find it and how much you'll pay (in many cases, not very much) with appendices that cover food types and feeding by neighborhood.
