**Daniel Ford : Country Northward: A Hiker's Journal** before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Northward: A Hiker's Journal:

2 of 2 people found the following review helpful. Excellent account of a White Mountains trekBy CarlI own this book in hardcover and I think it is great that it is available again in paperback. The author hikes through the White Mountains of New Hampshire and across into Maine. But more than a journal of his mini-expedition this is a glancing history of the Whites. Excellent! But the politically correct should take heed because the year is 1975 and the author among other things is a (gasp!) cigarette smoker. Let's hope that he has since reformed!Good photographs taken along the way. Highly recommended.

A 12-year-old describes his 9-day struggles to survive after being separated from his friends in the mountains of Maine.

"Lively, entertaining--an excellent piece of work" -- Yankee magazine"Meaty fare, well marbled with facts and observations" -- Country Journal magazineFrom the AuthorAs noted elsewhere, this is an Author's Guild "Back in Print" facsimile, and it looks terrible (about what you'd get if you took a book with many photos and made a fast machine copy of it). So I have keyed the text into a new file, and updated it, for new paperback and Kindle editions. You're better off waiting for that, unless you can find a used paperback or hardcover of the 1976 edition. Blue skies! -- Dan FordAbout the AuthorDaniel Ford is the author of four novels-Now Comes Theodora, Incident at Muc Wa, The

High Country Illuminator, and Remains (a story of the Flying Tigers). As a historian, he wrote Flying Tigers: Claire Chennault and the American Volunteer Group. He's a licensed pilot, resident scholar at the University of New Hampshire, contributing editor for Air Space magazine, and webmaster of "Nothing New About Death" (<http://danford.net>).
