It was a laborious read at a time when I was searching for something both useful AND enjoyable! Without photos accompanying the descriptions of various locations within Albemarle County, I was left with a bland sense of what these places actually looked like. I had to

rely on the power of my own creative imagination to visualize what was being presented. Architectural photography would have encouraged me to visit Albemarle County as I would be better able to recognize the sites referred to in the book. 3 of 3 people found the following review helpful. summer afternoon cruising By Crozet Painter We have had many pleasant afternoons cruising Albemarle with one of the children as a designated reader. You'll learn much about our past, the history of Albemarle County and yourself as you read about the roads and homes still here.
