I live in Palm Beach County which isn't exactly Miami, but it has been helpful to me nonetheless. I keep it in my pocketbook and refer to it almost daily.0 of 0 people found the following review helpful. Very good colour and birds look like birdsBy Philip John YoungExactly what I expected. Very good colour and birds look like birds.

Florida is a haven for tens of millions of migratory birds each year, and Miami provides an urban oasis stopping point for many. A terrific place for urban birding, it is home to over 413 species, including the state bird, the mockingbird. This beautifully illustrated guide highlights over 140 familiar and unique species and includes a map featuring prominent regional bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
