One side has the five boroughs, although not all of the Bronx and Staten Island are in the picture, and only major roads are included. The other side has Manhattan in a fair amount of detail, enough to navigate around on foot or by car. On the Manhattan side, sites of interest are noted, as are the neighborhoods. There is an inset map of the subway system and an index of streets. The map folds up nicely and is plasticized for surviving coffee spills and rain. Highly recommended as a portable guide.0 of 1 people found the following review helpful. Five StarsBy Alisha KaleGreat quality map. Foldable so will pack well in my bag. Very pleased.

NEW. The Michelin New York City Map part of Michelins brand-new Laminated City Map series is ideal for visitors wanting to see the sights and navigate around the city. Points of interest drawn from Michelin Green Guides are described and highlighted on the map for easy sight-seeing. Planned routes and stops can be marked, then wiped off the laminated surface* while the maps accordion-fold pattern allows for a fast look and even faster refold. Rely on Michelins clear mapping and street index for an enjoyable visit.* Use only dry-erase markers.
