Bruce Thompson : Milwaukee Bike Map: And Southeast Wisconsin before purchasing it in order to gage whether

or not it would be worth my time, and all praised Milwaukee Bike Map: And Southeast Wisconsin:

1 of 1 people found the following review helpful. Probably the best map out there but could be betterBy Noah WhiteI like this map and I use it fairly frequently. It could be better however. My main grip is that it doesn't show what kind of road the bike route is on. It would be nice to know if there is a bike lane, on/off road... ect... otherwise... very nice map and the best I've seen in the Milwaukee area.

Complete network of bike trails and bike friendly roads in Milwaukee and SE Wisconsin. The routes were selected and field tested by experienced cyclists. You will find unique local roads and little known bike trails for great recreational bike riding plus direct, bike friendly routes to get you to work and back or through your daily errands. Map Details: 34" X 22" Side 1: Detail view of Milwaukee including all local streets, bike routes and trails. Smaller roads grayed out to improve readability. All bike roads and trails interconnect to create a complete network of bike routes. Includes inset details of Racine, Kenosha and Waukesha Side 2: Overview of SE Wisconsin from Illinois border to Port Washington and west to Lake Geneva. Includes bike friendly roads and bike trails. All routes and trails interconnect to create a continuous network of routes. Transition from urban to rural areas is seamless so you can continue your route into or out from the urban/suburban core. Small roads grayed out to improve readability.

About the Author Bike route researcher Bruce Thompson has been exploring the byways and bike trails of Wisconsin for over two decades. He has served on the Milwaukee School Board and is currently a professor and program director for MS in Engineering Management at the Milwaukee School of Engineering.
