I could not blow up the front of the image on enough to make certain, but the description claimed there was an inset map of Madison, WI. This particular map did not have an inset map of Madison, which I did need in addition to the Milwaukee map. Our rather old atlas was more helpful.0 of 0 people found the following review helpful. Did what I neededBy Andrew KarppinenThis map came with a water resistant coating on it which helped since it rained while I was there. Used to get my maps free through AAA but they have since quit offering that.0 of 0 people found the following review helpful. Four StarsBy anthony palucciuseful
