This is great for a quick reference but get something else (like a book) if you want more detailed information and pictures. 1 of 1 people found the following review helpful. Minnesota Birds - What kind of bird is that? By Judy Bolton Heavy, vinyl folder-style identification for all the Minnesota birds. It takes up little space in home or for travel or on a bird expedition in Minnesota. It wipes clean with a damp cloth so will keep forever without frayed edges or getting tore. 0 of 0 people found the following review helpful. Five Stars By T. A. Lundahl none

The North Star State is the permanent or migratory home of 438 species of birds, including the state bird, the common loon. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
