However, it only has the common butterflies and moths that everyone knows. I was hoping for those indigenous to Minnesota and not most of the country. 0 of 0 people found the following review helpful. Five Stars By prairie canoe Part arrived quickly and is what was expected. 0 of 0 people found the following review helpful. Great resource! By bakwoods Used for outdoor identification

Minnesota's state insect, the Monarch butterfly, is one of over 880 species of butterflies and moths found in this region. This beautifully illustrated guide highlights over 70 familiar and unique species and includes information on their life cycle and features illustrations of common caterpillars and pupae. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
