We meet weekly and these guides have come in so handy. They are laid out well enough that kids as young as 4 can navigate them to find something they want to identify (with a little help from the adults to read about it to them). While these guides don't have everything, they are quite comprehensive, especially for their compact size. Because they are laminated I feel confident handing them to the littlest hands and

know that they will come back in good shape. I now always keep them in my backpack. A great value for the money.0 of 0 people found the following review helpful. Five StarsBy J. L. AdamsBetter than expected. Great set of guides!

The Minnesota Nature Set offers the best in wildlife and plant identification for The North Star State. The set includes three Pocket Naturalist Guides to Minnesota, Trees Wildflowers, Birds, and Wildlife, and is attractively packaged in an acetate bag. The beautifully illustrated folding guides highlight well over 300 familiar and unique species and include ecoregion maps featuring prominent wildlife-viewing areas and botanical sanctuaries. Laminated for durability, Pocket Naturalist Guides are lightweight, pocket-sized sources of portable information and ideal for field use by novices and experts alike. Made in the USA.

About the AuthorZoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures.
