What an AMAZING book! I plan to take it up to the cabin for others to read this summer! If you grew up in the 50s - 60s and went on vacation to Minnesota you will love the pictures and the memories. What a great book. I can't put it down!

By Sherry J. Miner
Our family owned a 'Mom and Pop' resort just like the ones in the book. In fact, our brochure is pictured in the book. It is a great history of the unique life style that we grew up in. Very interesting to compare our experiences with those in the book.

We thoroughly enjoyed the book and our family loves to look through it. We are very pleased with the condition of the book also.
