Steve Johnson and Kenneth Belanger : Minnesota Waterfalls before purchasing it in order to gage whether or not it would be worth my time, and all praised Minnesota Waterfalls:

1 of 1 people found the following review helpful. Waterfalls of MinnesotaBy qwertyuiopThis is a good book overall, but there are a few reasons why I did not give it 5 stars. While many of the photographs are good, some are blurry or dull. Many of the "waterfalls" are actually dams, and while the waterfalls in the northern section of the state are all truly waterfalls, there are too many miniature waterfalls around the twin cities. This is a good book, though, and it introduced me to many waterfalls around Minnesota that I did not even know existed.5 of 6 people found the following review helpful. Somewhat disappointingBy bilahnThis book is a survey of Minnesota waterfalls, giving

pretty much equal time to each section of the state. Therein lies the first problem - all but a handful of Minnesota's most important waterfalls lie within a few miles of Lake Superior, so I am not sure of the validity of the premise of the book. Too many of the waterfalls listed here are really insignificant, even if the locales themselves may be very lovely. Secondly, the authors write in a very flowery style, often resorting to repeating the same cliched phrases. I know some readers will find this vivid and appealing, but to me it is distracting and irritating. The trick for a book like this is to find the right balance between dry commentary and "purple prose." I also have some issues with the photography. The color images are rather grainy. I don't know if that is intentional or not. Either way, I don't think they look good. 0 of 0 people found the following review helpful. Four Stars By Customer Great pictures!

Waterfalls are some of nature's most fascinating treasures. Minnesota Waterfalls is your guide to 70 falls throughout the state just waiting for you to explore. Clear, accurate directions show you the way, while concise notes and gorgeous color photos introduce you to the wonders in store for you.
