my time, and all praised Miss Passport City Guides Presents: Mini 3 day Unforgettable Vacation Itinerary to Cape Town, South Africa (Miss Passport Travel Guides):

Miss Passport mini three-day unforgettable vacation itinerary (Cape Town South Africa) Africa has always been a place of mystery and legend it has stirred the imagination of many explorers and adventurers is rumored to house the lost mines of King Solomon, the Ark of the covenant, one of the missing Crystal skulls, and many other wondrous treasures for generations it was known as the "dark continent" simply because so little of it had been explored and mapped. There were rumors of wild beasts and vegetation that could be found nowhere else on earth and it was said that its people possessed magic powers and could walk between the world of the living and the spirit world at will it was also said that African warriors were some of the most ferocious fighters humanity ever produced. It was sad that they had no fear of death could feel no pain and that they could out run a lion. Africa is a vast continent, housing many countries; the most sought-after and contested of these however, is South Africa it has been fought over by many nations, most notably, the Belgians and the British both of these powerful countries have laid claim to South Africa, and her riches. At one time or another, the territory was desired. Thanks to the gold and diamond mines that were scattered throughout the region (which are still producing today). The capital of South Africa is Cape Town, Cape Town is a city with a rich history and vibrant culture it is a melting pot of British Dutch and Belgian, as well as the numerous African ethnicities and native tribes. There are many different dialects and languages spoken. The most famous of which is probably Afrikaans (a homegrown language, which is a mixture of Dutch and several African dialects this language was originally developed as a way for Dutch colonial traders to communicate with their African counterparts, and has been spoken by successive generations of white South Africans). When you visit Cape Town you will see one of the oldest and most active ports in the world is an epicenter of trade for the entire continent. It handles everything from fresh fruit to the latest generation iPad. You will hear numerous languages and laughter and gaze upon the scene that would have been exactly the same (minus the iPads of course). Since Cape Town was founded. Cape Town is full of magnificent restaurants, elegant boutiques and extremely friendly people who welcome visitors with open arms and are more than happy to share their stories and culture with anyone that asks. There are also plenty of reputable guide companies in Cape Town that specialize in showing tourists. The wonders of Cape Town and the history of the city itself, as well as the wild animals and botanical life, everyone wants to see a rhinoceros or a giraffe or a lion in the wild. At least once in their lifetime and you will definitely have that opportunity in Cape Town. This handy little guide book is worth its weight in diamonds is like having a personal travel guide tucked away in your luggage, who is at your beck and call with only one job and that job is to ensure that you have the most unforgettable.
