Ken Gerhard, Nick Redfern : Monsters of Texas before purchasing it in order to gage whether or not it would be worth my time, and all praised Monsters of Texas:

2 of 2 people found the following review helpful. loved the book read it cover to cover as soon ...By Jim Gilchristloved the book read it cover to cover as soon as I got it a must read for the avid cryptid hunter (Photos Only)8 of 8 people found the following review helpful. Monsters of TexasBy S. WhitworthNick Redfern and Ken Gerhard have really gone out of their way to provide their fans with a wonderfully researched read. "Monsters of Texas" will have you sleeping with the lights on. Do not hesitate to get this book, not even for a second!3 of 3 people found the

following review helpful. great crypto book By Michael R. Domenicali Jr. as a life long native Texan, there are reports that I have never heard of. very informative and fun to read.

Texas - or the Lone Star State, as it is affectionately and widely known - is the second largest U.S. state in both area and population, and contains both colorful and majestic landscapes that range from desert to plains, and forest to wild canyons. But that is not all: all across Texas there lurks a wide array of monsters, mysterious beasts and diabolical creatures that science tells us do not exist - but that a significant percentage of the good folk of Texas certainly know otherwise.
